**ALL FUCHSIA GROWERS**

We are pleased to offer you our 2019 list that cancels all previous lists and trust that you will be able to find the fuchsias you require within.

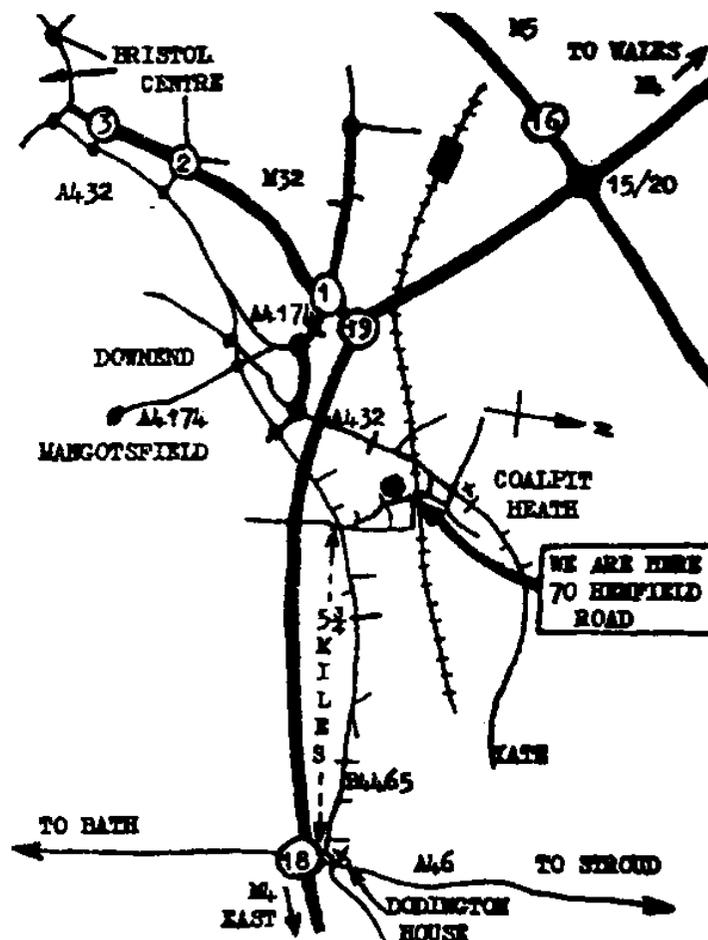

We shall be showing at the R.H.S. Shows from time to time together with other leading shows throughout the country, where we hope to meet our regular and new customers.

We take this opportunity of wishing you success in your fuchsia growing and trust that we will be in a position to supply your future requirements.

Yours sincerely **C. S. LOCKYER**

- True Love.**                2018. (Gerald Blackwell) Double. Tube and Sepal white. Corolla pale pink veined pink. Vigorous lax bush. **H.2.**      **£5.00**

**We would advise customers calling to ring to avoid disappointment**

Driving from M4 junction 19, take M32 to junction 1 (0.2 mile), turn left on to A4174, straight across traffic lights. At roundabout turn left on to the ring road. At the next roundabout turn left on to A432, proceed 1.5 miles. Turn second right after railway arch into Henfield Road, first right in front of "Ring of Bells", continue 300 yards under railway arch. Our nursery is 200 yards on right.

When leaving M4 junction 18, follow A46 (Stroud) 200 yards, turn left on to B4465, follow this for approx. 5.7 miles, turn right into Henfield Road, we are 200 yards before railway arch (1 mile).

<b>Anthea Day.</b>	1981 (J. Day). Double. Tube and sepals rich waxy red, Corolla blush pink. an easy grower, good upright bush. This seedling from Pink Cloud and Pink Quartette has aroused much interest, flowering freely from early in the season right the way through. Recommended. <b>H.2</b>	<b>£2.75</b>
<b>Applause.</b>	1978 (Stubbs). Double. Tube and Sepals pink. Tube short, sepals broad. Corolla unusual shade of pinkish-orange, Very large flowers. Growth arching and vigorous. <b>H.2.</b>	<b>£2.75</b>
<b>Apricot Ice,</b>	2006 (J. Day) Single. Tube and Sepals crisp apricot cream. Corolla enchanting rich apricot. Blooms are freely produced on extremely vigorous upright growth. Suitable for garden borders, containers and standards. This new exquisite apricot variety is thoroughly recommended. <b>H2</b>	<b>£2.75</b>
<b>F. Arborescens.</b>	1826 (Sims). Flowers same form as lilac. Clusters of small lilac blooms. Very fast upright grower. <b>H.2.</b>	<b>£5.00</b>

<b>Autumnale.</b>	(Metior). Single. Sepals red. Corolla purple, The Autumn tinted foliage of this fuchsia is its attraction. Grows low spreading. <b>H.2.</b>	<b>£2.75</b>

## CULTURAL HINTS

We do not feel that Fuchsias are hard to grow, and would suggest that reasonable good results should be obtained without much previous experience.

The plants we send out are in soil blocks. On arrival they should be watered and potted into 3.5 in pots in John Innes No. 2 which should be obtained fresh.

They make fairly rapid growth, and dependent on the time of year, they should require repotting into 5-in pots in about a month to six weeks, into John Innes No. 3.

We suggest you carry out these instructions for all varieties of Fuchsia plants if obtain early, even if the plants are to be planted outside later as this enables you to plant them slightly deeper and avoid the risk of the roots being frosted in the coming winter.

There are various methods of training Fuchsias, ie.:-

**Bush** - Generally speaking, to obtain a normal plant one should stop at each three to four pairs of leaves and allow six to eight weeks for flowering from a pinch. It should be noted here that Fuchsias flower normally speaking from June to October, and should then rest through the winter, until early spring.

Plants obtained in the spring can be potted on, gradually increasing the size of the pot, and produce good strong plants for the summer. Never place outside until all risk of frost has passed. Regular watering and weekly feeding is all that is required when the final pot size has been obtained.

**Basket** - Many of our customers make hanging baskets and often we are asked how many plants per basket, this is a matter of personal choice but 4 or 5 plants in a 12-in or 14-in basket should give an excellent display, whereas 3 over-year-old plants would give satisfactory results. Fuchsias grown in baskets should always be taken apart and remade each spring, obviously with fresh compost.

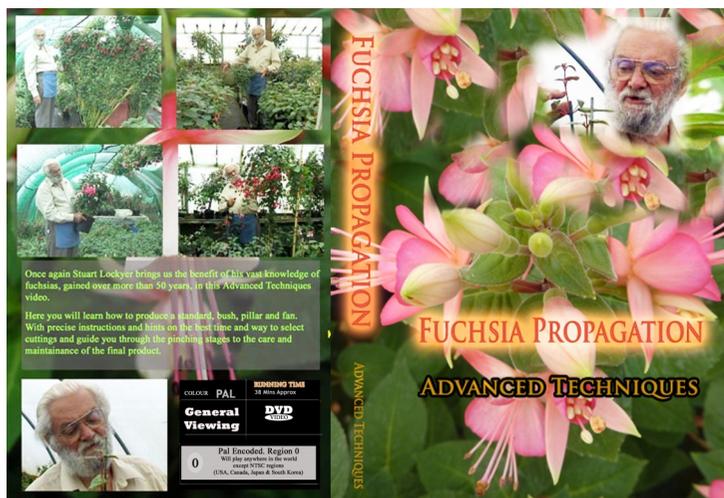

**Standards & Pillars** - We are strong believers in growing standards or pillars from stock selected for this purpose, which we have available from the nursery or show stands (not mail order). Full standard stems are best grown through the winter months but many of our customers require ¼ or ½ standards, which can be produced quickly from early spring whips. The technique is to grow the main stem as quickly as possible, supported by a cane, removing side shoots if necessary but never the leaves, this is for conventional standards. For pillars, pinch side shoots out after 2/3 pairs of leaves. Pinch standards out at top when desired height is obtained, growing on the top 6 side shoots, pinching these out at each 2/3 pairs of leaves. At all times both for standards and pillars leave sufficient time to bloom after last pinch.

**Hardies** - For planting outside in permanent beds carry out general instructions. When the time comes (end of May/start June) when risk of frost has passed, plant out into well prepared beds, raised slightly above the common level, to help winter drainage. We would prefer that a covering of peat or other frost protecting material be used to obtain protection of the roots against cold in winter.

NURSERY TALKS

We have special days from time to time throughout the season when we have talks and demonstrations, with video at times to show out of season information. Please ring for dates.

**DVD**

**"Fuchsias: Advanced Techniques"**

Stuart Lockyer brings us the benefit of his vast knowledge of fuchsia cultivation gained over more than 50 years to teach you how to produce a standard, bush, pillar and fan formations. With precise instructions and hints on the best time and way to select cuttings and guides you through the pinching stages to the care and maintenance of the final product

**Only £16.50 including P&P. V.H.S. or DVD (Please state which)**

**PLEASE NOTE FOR WINTER MONTHS:**

H.1. requires Greenhouse heated to minimum of 40°F (4.5°C).

H.2. requires a cool Greenhouse - half hardy.

H.3. denotes the plant is hardy. The heights printed on the H3 varieties in this catalogue are an approximate guide to help your selection and planting layout and is the approximate height expected in the second growing season after a normal winter.

Although the above classifications are our recommendations, many of our customers are growing fuchsias that we classify as H.2 out of doors with good results and obviously with bigger blooms produced on H.2's than on H.3's. It may be worth a try, the first winter being where greatest care is required (a good covering of peat is always beneficial).

The RHS and the British Fuchsia Society list many fuchsias that we classify as H2 medium hardy, as H3 hardy and with the climate changes (Global warming) this has probably become a fact

- Avon Gem.** 1978 (J. Lockyer). Single. Tube and Sepals red. Narrow. Corolla purple to magenta. Medium size bloom. vigorous grower, very free flowering, makes good standard. **H.2. £2.50**
- Avon Glow.** 2002 (J. Lockyer). Semi-double. Tube and Sepals white, blushed with pink underside long tube. Corolla vibrant fire red. Very strong growth with dark green foliage. Blooms freely produced. Suitable for bush or standard use. Excellent grower. **H.2. £2.75**
- Avon Gold** 1985 (J. Lockyer). Single. Tube pale pink. Sepals pink tipped with green. Corolla pale lavender pink. This variety has medium sized blooms and is very profuse. It has beautiful variegated creamy gold foliage. Makes a strong shapely bush. Good for show work. **H.2. £2.50**
- Baby Blue Eyes.** Single. Tube and sepal bright red. Corolla bright blue. Small red and blue flowers. Compact and upright grower. 1½ – 2ft (45-60cm) **H3 £2.50**  
**(Hardy)**
- Bagworthy Water.** 1972 (Endicott). Single. Tube medium long. Sepals curling right up round. Salmon/orange. Corolla claret rose fading to neyron rose. Arching habit. This fuchsia is also good to look at from above. **H.2. £2.50**
- Balkon.** (Neubronner). Single. Tube and Sepals pink. Corolla deep pink. Small medium flowers. Very free flowering and well suited to basket or window boxes. Grows cascade. Also makes good pot plant when supported. **H.2. £2.50**
- Ballet Girl.** 1894 (Yeitch). Double. Tube and Sepals rich cerise. Corolla white veined. Flowers medium-large. Good show fuchsia grows strong and upright. **H.2. £2.50**
- Barbara.** 1971 (Wilf Tolley) Single. Tube pale pink and short. Sepals pale pink slightly upturned. Corolla cherry and tangerine pink, semi-flared and shortish. Growth upright, extremely vigorous, outstanding feature is the abundance of blooms it has. This variety makes an excellent standard. **H.2. £2.50**
- Beacon.** 1871 (Bull). Single. Tube and Sepals scarlet. Corolla bright magenta-pink. Waxy, dark green foliage, upright bush, like Display. **H.2. £2.50**
- Beacon Rosa.** 1972 (Burgi-Ott). Single. Tube and Sepals pinkish red, tube rather long. Corolla paler pink slightly veined red. Medium sized flowers, early and free flowering. Foliage similar to Beacon, upright and bushy. **H.2. £2.50**
- Beauty of Bath.** 1965 (Dr. O. Colville). Semi-double. Tube and Sepals pale pink. Corolla white, long oval shape. **H.2. £2.75**

<b>Beauty of Prussia.</b>	1966 (Holmes). Double. Tube and Sepals scarlet. Corolla scarlet lake, veined scarlet. Medium sized blooms, dark shiny foliage. 2½-3½ft (75-100 cm). <b>H.3.</b>	<b>£2.50</b>
<b>(Hardy)</b>		
<b>Bella Rosella.</b>	Double. Tube/sepals short cream blush pink. Corolla extremely full marbled strawberry pink. Very large blooms. Lax bush – suitable for basket. <b>H2</b>	<b>£2.75</b>
<b>Belvoir Beauty.</b>	1975 (Gadsby). Semi-double. Tube short, white flushed green. Sepals white with green tips, broad, waxy, with crepe effect and held well up. Corolla white at base shading through to pale wisteria-blue with bluebird-blue edge to each petal. Medium growth, upright bush. <b>H.2.</b>	<b>£2.50</b>
<b>Ben Jammin.</b>	1993 (Carless) Single. Tube pale pink. Sepals pink flushed pale aubergine. Corolla dark aubergine - purple. Excellent bushy compact plant suitable for show work. Free flowering. <b>H.2.</b>	<b>£2.75</b>
<b>Bicentennial.</b>	1976 (Paskesen). Double. Tube white. Sepals indian orange inside, salmon orange outside. Corolla orange and magenta. Excellent flower, lax growth, self-branching. Good for baskets or standards. <b>H.2.</b>	<b>£2.75</b>
<b>Billy Green.</b>	1966 (Unknown). Single. A triphylla type fuchsia. Tube very long, pinkish-salmon self throughout. Foliage olive green, growth vigorous, upright and bushy. Great for show work, tubs and garden. <b>H.2.</b>	<b>£2.75</b>
<b>Blacky.</b>	2004 (Roes) Double. Tube and Sepals dark reddish purple. Corolla opens to reveal a beautiful ruffled darkest purple/black petticoat. The deepest colour of this variety is in the early season. Foliage very dark green. Vigorous upright tidy free branching growth. <b>H2</b>	<b>£2.75</b>
<b>Blands New Stripe.</b>	Single. Tube and sepals bright red. Corolla purple striped red. Vigorous upright bush <b>H.2.</b>	<b>£2.75</b>
<b>Blue Danube.</b>	2018. (Gerald Blackwell) Double. Tube and sepals pink. Corolla blue veined pink. Early and free flowering for a larger bloom variety Highly recommended <b>H.2.</b>	<b>£5.00</b>
<b>Blue Gown.</b>	(Milne). Double. Tube and Sepals waxy carmine. Corolla blue to purple. Flowers very large. Free early flowering for double type. Has been grown well outside. 2-3ft (60-90cm). <b>H.3.</b>	<b>£2.50</b>
<b>(Hardy)</b>		
<b>Blue Mirage</b>	1984 (Bellamy). Double. Tube and Sepals white, with pink flush. Corolla pink through to blue. Vigorous arching growth, self branching. Suitable for hanging pots and baskets. <b>H.2.</b>	<b>£2.75</b>

**SPECIES (TYPES)**

<b>F. Arborescens.</b>	1826 (Sims). Flowers same form as lilac. Clusters of small lilac blooms. Very fast upright grower. <b>H.2.</b>	<b>£5.00</b>
<b>F. Boliviana var. Luxuriana "Alba".</b>	Tube white. Corolla blood red. This magnificent plant has extra long flowers, the white tube contrasting starkly with the short red corolla. <b>H.1.</b>	<b>£5.00</b>
<b>F. Denticulata.</b>	1802 (Ruiz & Pavon). Tube and Sepals long reddish-pink, sepals tipped green. Corolla red. Large dark green foliage with long tubular flowers. Strong upright bush, must be pinched out. <b>H.2.</b>	<b>£4.00</b>
<b>F. Fulgens Gesneriana.</b>	Long tube light vermilion/red. Sepals yellowish to green with red base. Corolla bright vermilion, extremely attractive long flowers, pendulous and borne at extreme end of branches in clusters. Foliage is light sage green, darker on upper side. One for the collector. <b>H.1</b>	<b>£4.00</b>
<b>F. Procumbens.</b>	1839 Species. Tube greenish yellow, red at base. Sepals green tipped purple. No Corolla. Stamens bear bright blue pollen. Seed pods turn from green to plum purple and become quite large. Flowers free, very small and points upwards. Growth trailing, suitable for rockeries. 4in (10cm). <b>H.3.</b>	<b>£4.00</b>
<b>(Hardy)</b>		
<b>F. Procumbens Variegata.</b>	Tube greenish yellow. Sepals green tipped purple, fully reflexed exposing stamens with bright blue pollen. The foliage of the variety is highly variegated, silver green and cream edged with pink distinctive cast. Growth trailing, suitable for rockeries or ground cover. Natural variant of procumbens. <b>H.3.</b>	<b>£4.00</b>
<b>(Hardy)</b>		
<b>Speciosa.</b>	Tube long orange vermilion colouring. Sepals yellowish green with orange base, Corolla orange vermilion. Long attractive flowers. Unusual light green foliage - Upright bush. This is not a true species but a hybrid from F. Splendens and F. Fulgens. <b>H.2.</b>	<b>£4.00</b>
<b>F. Splendens.</b>	Single. Tube scarlet. Sepals green with reddish base, Corolla yellowish green, filaments pale yellow green. Triphylla like blooms. Unique flattening of tube is a characteristic of this unusual species. <b>H.2.</b>	<b>£5.00</b>

- Winston Churchill.** 1942 (Garson). Double. Tube and Sepals pink. Corolla silvery-blue. Flowers medium, free. A well liked fuchsia this and is in constant demand. Upright bush. **H.2. £2.50**

#### TERMS OF BUSINESS

##### PRICES

All plants in this list are priced, this price being for a plant in a peat block. If collected from the Nursery they will be in 3-inch pots. Larger plants are usually available.

##### STANDARD WHIPS

We are able to supply several varieties as partly grown standards approximately 16 in - 18 in high. Most suitable varieties would be obtainable if ordered early, but these obviously are not available throughout the season. Prices are according to variety approximately £3.25 to £4.00 over the list price. Larger standards are available. All the above are for collection only from the Nursery or Show-stands.

##### FEED

We are able to supply liquid feed as used by us for Fuchsias at £3.50 per bottle, on collection from the nursery or shows where available.

##### GIFT TOKENS

We are able to supply Gift Tokens with Fuchsia floral design for amounts from £5.00 upwards, together with our current list.

##### CARRIAGE AND PACKING

All plants are sent by post, (1st class if possible). This method has been found to be very successful. Post and packing: up to 6 plants £6.50, 7-12 plants £8.90, 13-18 plants £10.50, 19-24 plants £12.95. This includes orders to Northern Ireland, Channel Islands, Isle of Man and the Isle of Wight. Cash with order or if remitted within 14 days, otherwise at cost, all plants are dispatched strictly at customer's risk. We feel this method of despatch will be most suitable for you, with the advantage of delivery to your home. We are always pleased, however, to make arrangements for customers to call and collect from the Nursery, thus saving this charge. Assuring you of our best attention at all times.

##### MINIMUM ORDERS

We find it uneconomical to supply less than six plants, not necessarily of one variety, due to postage and packing costs.

##### SUBSTITUTES

We do our best to fulfil orders accepted from our list, but in the event of stocks of certain varieties not being available to meet demands, we would substitute with the nearest available plant, unless otherwise instructed by you. This substitution would only be carried out where the delay involved would be several weeks. If ordering by post, we suggest you give one or two alternatives to your order.

- Blue Veil.** 1980 (Pacey ) Double. Tube and Broad Sepals pure white. Corolla lavender blue. Lax growth suitable for bush or hanging basket. Extremely free flowering. Very pleasing colour combination. Excellent grower. **H. 2. £2.75**

<b>Riccantonii.</b> <b>(Hardy)</b>	1833 (Young). Single. Tube and Sepals scarlet. Corolla darkish purple. Longish flowers, very freely produced. Has rather bronzy foliage. Excellent for hedging. Extremely hardy. 4-6ft (1.2-1.8m). <b>H.3</b>	<b>£2.50</b>

LOCKYER FUCHSIAS, 70 HENFIELD ROAD, COALPIT HEATH, BRISTOL

<b>Falling Stars.</b>	1941 (Reiter). Single. Tube and Sepals palish scarlet. Corolla dusky red. Flowers medium size, freely produced. Makes good single. Lax bush. Show class fuchsia. <b>H.2.</b>	<b>£2.50</b>
<b>Fancy Pants.</b>	1960 (Reedstrom). Double. Tube and Sepals bright red. Corolla light purple, fading to red. Good shape. Light green foliage. <b>H.2.</b>	<b>£2.50</b>
<b>Fascination.</b>	1905 (Lemoine). Double. Tube and Sepals rich waxy red. Corolla blush pink, shading to rose. Flowers large and very freely produced. Excellent for Show work. Strong upright bush. <b>H.2.</b>	<b>£2.50</b>
<b>Firecracker.</b>	1998 (J.Ridding) Single. Bright orange-scarlet self. Tube long. Sepals and Corolla small. Flowers long free, borne in terminal clusters. It is a variegated triphylla upright fuchsia. <b>H.2.</b> Better as <b>H.1.</b>	<b>£3.50</b>
<b>Fire Mountain.</b>	1980 (Stubbs) Double. Tube flesh coloured. Sepals pale orange pink. Corolla orange carmine. Large compact blooms when first opens, spreading with maturity. Large serrated leaves. Free blooming for size. Arching habit suitable for bush or hanging basket. <b>H.2.</b>	<b>£2.75</b>
<b>Flair.</b>	1961 (Tiret). Double. Tube white. Sepals palest pink at base then white. Corolla lavender ageing to a light pinkish purple, veined pink. Growth lax, needs staking if an upright plant is required due to weight of bloom. <b>H.2.</b>	<b>£2.50</b>
<b>Flash.</b> <b>(Hardy)</b>	(Hazard). Single. Small flowering bright red self. Very free and showy, upright growth. Suitable for hedging in sheltered areas. 3½-4½ft (1-1.35m). <b>H.3.</b>	<b>£2.50</b>
<b>Floral City.</b>	1974 (Holmes). Double. Tube and Sepals very pale pink. Corolla pale lilac. This makes a very delicate shaded fuchsia although is an excellent grower and would make good show plants. Thoroughly recommended. <b>H.2.</b>	<b>£2.75</b>
<b>Flying Cloud.</b>	1949 (Reiter). Double. A pale creamy white self colour with just a suggestion of pink at centre. Flowers medium. Another show type fuchsia. <b>H.2.</b>	<b>£2.75</b>
<b>Flying Scotsman.</b>	<b>1985 (Goulding). Double. Tube pink, reddening with age, short and thick. Sepals pale pink inside, darker pink outside. Corolla rosy-red with white streaks. Large unusual double, medium growth. Recommended. H.2.</b>	<b>£2.75</b>
<b>Forget-Me-Not.</b>	<b>1866 (Banks). Single. Tube and Sepals flesh pink. Corolla palish blue. Flowers medium-small, very free. Grows upright bush. H.2.</b>	<b>£2.50</b>

- Foxgrove Wood.** 1993 (Stiff) Single. Tube and Sepals pink. Corolla blue. Medium green foliage. Growth upright short jointed bush 2-3ft (60-90cm). **H.2/H.3. £2.75**
- Friendly Fire.** 1985 (Hobson) Double. Tube and Sepals rose-madder. Shortish tube, horizontally held sepals. Corolla opens white, heavily shaded rose-madder at least halfway down, wavy petals. Large full blooms with many petaloids very freely produced on strong upward growth. Early bloomer. Foliage darkish green heavily serrated. Very reliable variety like one of its parents, Swingtime. **H.2. £2.75**
- Frosted Flame.** 1975 (Handley). Single. Tube white. Sepals white flushed palest pink inside, long and narrow. Tips curl upwards. Corolla bright flame with deeper edge, pale pink near tube. Long barrel shaped flowers. Early, large and profuse. Growth natural trailer. **H.2. £2.50**
- Fuchsiade 88.** 1989 (H.J. de Graaff) Single. Tube and Sepals reddish purple. Corolla opens dark purple maturing to purple. These most usual coloured smallish flowers are freely produced on very strong upward growth. Dark green foliage. **H.2 £2.75**
- F. Fulgens  
Gesneriana.** Long tube light vermilion/red. Sepals yellowish to green with red base. Corolla bright vermilion, extremely attractive long flowers, pendulous and borne at extreme end of branches in clusters. Foliage is light sage green, darker on upper side. One for the collector. **H.1. £4.00**
- Garden News.  
(Hardy)** 1978 (Handley). Double. Tube pink, short and thick. Sepals pink on outside, frosty rose-pink underside, broad and short. Corolla shades of magenta-rose, base of petals rose-pink. Blooms of attractive shape, mainly in fours at each pair of the leaf axils, continuous flowering. Upright bush, one of our largest flowered hardies. 2½-3ft (75-100cm). **H.3. £2.75**
- Gartenmeister  
Bonstedt.** 1906 (Bonstedt). Single. A rich glowing orange-brick-red self. Tube long. Sepals small. Corolla small. Flowers large, very free, borne in clusters. Dark reddish foliage. A hybrid from F. triphylla. Grows upright bushy. **H.1. £2.75**
- Gay Fandango.** **1951 (Nelson). Semi-double. Tube and Sepals rosy carmine. Corolla rosy-magenta. Flowers large, free. Corolla longish. A very adaptable fuchsia producing all forms of growth satisfactorily with appropriate pinching. Recommended. H.2. £2.50**

- President  
George Bartlett.** 1997 (Bielby + Oxtoby) Semi-double. Tube and Sepals burgundy red. Corolla opens dark aubergine purple fading with age. Freely produced blooms. Dark green bushy upright foliage. Easy to grow - Suitable for show work. Highly recommended. **H.2. £2.75**
- President.  
Margaret Slater.** 1972 (Taylor) Single. Sepals white-salmon-pink. Corolla mauve-pink salmon. Trailer. **H.2. £2.50**
- Preston Guild.** 1971 (Thornley). Single. Tube long and white. Sepals white, underside flushed pink, broad. Corolla violet blue shading to white at base. Long stamens, very long pistil. Smallish flowers freely produced, Upright bush. **H.2. £2.50**
- Prince of Orange.** 1872 (Banks). Single. Tube and Sepals waxy salmon to flesh pink. Corolla orange vermilion. Flowers medium large. Good fuchsia, early flowering. Grows upright bush. **H.2. £2.75**
- F. Procumbens.  
(Hardy)** 1839 Species. Tube greenish yellow, red at base. Sepals green tipped purple. No Corolla. Stamens bear bright blue pollen. Seed pods turn from green to plum purple and become quite large. Flowers free, very small and points upwards. Growth trailing, suitable for rockeries. 4in (10cm). **H.3. £4.00**
- F. Procumbens  
Variegata.  
(Hardy)** Tube greenish yellow. Sepals green tipped, fully reflexed exposing stamens with bright blue pollen. The foliage of the variety is highly variegated, silver green and cream edged with pink distinctive cast. Growth trailing, suitable for rockeries or ground cover. Natural variant of procumbens. **H.3. £4.00**
- Prosperity.  
(Hardy)** 1970 (Gadsby). Double. Tube crimson, thick. Sepals crimson, waxy and firm. Corolla pale neyron-rose, flushed and veined rose red. Medium sized blooms, dark glossy foliage. Growth upright bush, excellent bedder. 3-4ft (90cm-1.2m). **H.3. £2.50**
- Purple Heart.** 1950 (Walker). Double. Tube and Sepals crimson, long. Corolla rich violet with outside petals rose. Flowers large. **H.1 for show work £2.50**
- Pussy Cat.** 1979 (Felix). Single. Tube and Sepals orange pink. Sepals broad and tipped green. This triphylla type flower has four stamens with pink petaloids attached, the remaining four are white. Nice compact growth. This is a novelty type. **H.2. £2.75**

- Pink Fantasia.** 1989 (Webb). Single. Tube white blushed dark pink. Sepals white blushed pink. Corolla opens dark purple veined pink, white at base, matures to light purple with picotee petal edges. Profuse erect blooms held above foliage. Show class variety. Upright grower. **H.2. £2.75**
- Pink Galore.** 1958 (Fuchsia-La Nursery). Double. Tube and Sepals deep pink. Corolla candy pink. Flowers largish, free. Trailing habit, makes excellent hanging basket. **H.2. £2.50**
- Pink Marshmallow.** 1971 (Stubbs). Double. Tube and Sepals pale pink. Corolla pale pink. Foliage light green. Grows cascade, extremely large flowers. A must for all collections. **H.2.** but for show work **H.1. £2.75**
- Pink Quartette.** 1949 (Walker and Jones). Semi-double. Tube and Sepals deep pink. Corolla pale pink. Flowers medium large. Corolla is formed by four petals rolled separately making a quartette effect. Strong grower, upright bush. **H.2. £2.50**
- Pink Slipper.** 1975 (Ryle) Single. Tube white. Sepals pale pink, corolla pink. **H.2 £2.50**
- Pink Temptation.** 1966 (Wills). Single. Sepals creamy white. Corolla pale tyrian rose. A bushy plant and very free flowering. **H.2 £2.50**
- Pinwheel.** (Waltz). Double. Sepals pink. Corolla lovely shade of violet. Has folded petals which open wide in centre. Upright bush. **H.1. £2.50**
- Pixie.** 1960 (Russell). Single. Tube and Sepals pale cerise. Corolla rosy mauve. Light green foliage, heavily veined. 2-2½ft (60-75cm). **H.3. £2.50**  
**(Hardy)**
- Powder Puff.** 1953 (Hodges). Double. Tube and Sepals very dark rose with rose madder at tips. Corolla rich pink. Flowers largish, very free. Makes good standard. Grows vigorous cascade. **H.2. £2.50**
- Prelude.** 1957 (Blackwell). Single. Tube and Sepals red. Corolla magenta. Medium sized, free flowering, carried in large clusters. Growth upright. This cultivar is different to 'American' Prelude. **H.2. £2.50**
- President Barrie Nash** (New) 2011 (Jim Day) Single. Tube and sepals white - sepals long. Corolla lavender - long flowers very attractive. Strong upright grower makes a good bush and standard. Last plant produced by the late Jim Day. **H2 £3.00**

- Gay Spinner.** 1978 (J. Lockyer). Semi-double. Tube and Sepals pink. Sepals very large. Corolla pink at top changing to imperial purple, nicely formed, but having a few petaloids it must be called a semi-double. Excellent grower. Suitable for standard work. **H.2. £2.50**
- Genii.** 1951 (Reiter). Single. Tube and Sepals cerise. Corolla dark violet. Most striking plant having yellow green foliage with such a dark violet flower. 2-3ft (60-90cm). **H.3. £2.50**  
**(Hardy)**
- Giant Pink Enchanted.** Double. Tube and Sepals rose. Corolla large white with red veins. Grows compact trailer. Very good grower. **H.2. £2.50**
- Gilt Edge.** 1979 (Endicote). Single. This fuchsia, as its name implies, has a gilt-edged leaf making it quite effective. Although all leaves do not possess this quality the overall effect is rather exciting. The blooms are small reddish orange. **H.2. £2.75**
- Gipsy Princess.** 1969 Large double. Tube and sepals red. Corolla white. **H.2 £2.50**

- Golden Anniversary.** 1980 (Stubbs). Double. Tube short and thick, greenish white. Sepals white. Corolla bluish purple. Full and frilly medium sized blooms, free flowering. New foliage is extremely light, almost green-gold ageing to pale green. Much interest has been shown in this unusual colour combination. Arching growth, making excellent basket or low bush. **H.2. £2.75**

<b>Golden Border Queen.</b>	1979 Single. Sepals rhodomine pink. Corolla amethyst-violet. Golden foliage. Upright bush. <b>H.2.</b> <b>£2.50</b>
<b>Golden Dawn.</b>	1951 (Haag). Single. Tube and Sepals flesh pink. Corolla pinkish orange. Produces large number of medium size flowers. <b>H.2.</b> <b>£2.50</b>
<b>Golden Treasure.</b>	1860 (Carter). Single. Tube and Sepals dull scarlet. Corolla purplish-magenta. Not grown for its flowers, but for its very attractive golden foliage. <b>H.2.</b> <b>£2.50</b>
<b>Gracillis Variegata. (Hardy)</b>	Tube and Sepals scarlet. Corolla purple. Silvery white variegated foliage suffused with red. 3-4½ft (90cm-1.35m). <b>H.3.</b> <b>£2.50</b>
<b>Grandma Sinton.</b>	1986 (R. Sinton). Medium double. Tube short light pink with red stripes. Sepals white with splash of red near tube. Corolla soft shell pink. Medium size blooms, free flowering. Vigorous lax growth suitable for basket or compact bush. <b>H.2.</b> <b>£2.75</b>
<b>Great Scott.</b>	1960 (Tiret). Double. Tube and Sepals carmine. Corolla jasper red, petaloids salmon pink. Flowers very large fairly free. Grows upright <b>H.2.</b> better as <b>H.1.</b> <b>£2.50</b>
<b>Gruss aus dem Bodethal.</b>	1904 (Teupel). Single. Sepals bright crimson. Corolla very dark purple, when first open almost black. Smallish flowers on a dwarf upright bush. <b>H.2</b> <b>£2.75</b>
<b>Happy Anniversary.</b>	1990 (C.B.Fleming) Single. Tube and Sepals white. Corolla white. A beautiful self coloured variety. Grows compact and free flowering. Suitable for show-bench work. <b>H.2.</b> <b>£2.75</b>
<b>Happy Fellow.</b>	(Waltz). Single. Sepals clear light orange. Corolla smoky rose. This is a very upright grower, with light green foliage. Must be well pinched. <b>H.2.</b> <b>£2.50</b>
<b>Happy Wedding Day.</b>	1986 (Richardson). Double. Tube white, striped rose-bengal, long. Sepals white, tipped green upper side, pink at base. Corolla white wavy petals making full compact skirt with showy rich pink stamens. An excellent vigorous grower and heavy bloomer, may need support. Makes a good show plant or standard. <b>H.2.</b> <b>£2.75</b>
<b>Harry Gray.</b>	<b>1981 (Dunnett). Double. Tube short, streaked rose-pink. Sepals white shading to rose-pink at base, tipped green, slightly recurved. Corolla white shading to rose-pink. A compact trailing variety, very free flowering, suitable for basket work or pot plant. H.2. £2.50</b>

<b>Peloria.</b>	<b>1961 (Martin). Double. Tube and Sepals rich dark red. Corolla centre petals rich purple overlaid with outer petals red. Large flowers forming star shape corolla. Upright bush. H.2. £2.50</b>
<b>Peppermint Stick.</b>	<b>1951 (Garson). Double. Tube and Sepals carmine to rose. Corolla rich purple, edged carmine striped effect. Flowers large fairly free. Grows strong upright bush. H.1. but will also grow. H.2. £2.50</b>
<b>Petra</b>	<b>Single. Tube and Sepals rose. Corolla Longish palest pink veined rose pink. Early and free blooming. Good growth for training. Upright bush .. H.2. £2.75</b>
<b>Phyllis. Hardy</b>	1938 (Brown). Semi-double. Tube and Sepals rose. Corolla deep rose. Flowers smallish, very free, early flowering. Must be pinched to keep low, as it makes very rapid growth. Large plant can be obtain in the first year. A very vigorous upright bush. 3½-4½ft (1-1.35m). <b>H.3.</b> <b>£2.50</b>
<b>Pink Aurora.</b>	1968 (Endicott). Single. This is a pink form of Aurora Superba with unique orange edging to the petals forming an orange edge to the corolla, making this a fuchsia with a pleasing difference. <b>H.2.</b> <b>£2.50</b>
<b>Pink Ballet Girl.</b>	Double. Tube and Sepe. Buds red and large. Good strong growing fuchsia. <b>H.2</b> <b>£2.50</b>
<b>Pink Bon Accorde.</b>	1959 (Thorne). Single. Tube and Sepals pale pink, sepals deeper underside, tipped green. Corolla deep pink, paler at base. <b>H.2.</b> <b>£2.50</b>
<b>Pink Darling.</b>	1966 (Michedo). Single. Tube and Sepals pale pink. Corolla lavender. Small flowers produced freely on long stems, making a showy plant. <b>H.2.</b> <b>£2.50</b>
<b>Pink Elephant</b>	<b>Double. Tube and Sepals rose-pink, sepals broad and long. Corolla rosy pink. Rose-like flower. Cascading habit. Excellent for baskets H.2. £2.50</b>
<b>Pink Fandango.</b>	1979 (J. Lockyer). Semi-double. Tube and Sepals carmine, sepals broad and long. Corolla starting rosy carmine shading to magenta, carmine edged. Good grower, makes excellent standard. <b>H.2.</b> <b>£2.50</b>

- Orange King.** 1975 (L.A. Wright) Double. Tube and Sepals pale salmon-pink, darker underside of sepals. Corolla opens rich orange, marbled pale orange. Exotic brightly coloured blooms, freely produced for size. Growth lax bush. Suitable for container or hanging basket. Thoroughly recommended and much admired. **H.2. £2.75**
- Orange Mirage.** 1970 (Tiret). Single with large flowers, the tube and sepals ranging from pale salmon at the base to green at the tips and the corolla longish, with a deep smoky orange colour. **H.2. £2.75**
- Orient Express** 1985 (Goulding) Triphylla. Long single flowers in terminal clusters. Sepals pink, paler underside. Corolla pink. Upright bush makes a good conservatory plant. **H1 or H2 £3.00**
- Ornamental Pearl.** 1984 (Gubler). Single. Tube and Sepals pale pink, sepals long and edged deeper pink. Corolla white. Flowers medium and free. Most unusual variegated grey-green foliage edged cream, with burgundy hue over new growth. Upright self-branching bush. **H.2. £2.75**
- Over The Waves** 2018. (Gerald Blackwell) Double. Tube and Sepals ice white. Corolla blue marbled pink. Vigorous lax bush very versatile can be trained into any shape. Highly recommended. **H.2. £5.00**
- Party Frock.** 1953 (Walker and Jones). Semi-double. Tube and Sepals palish rose. Corolla lovely pale blue with outer petals soft pink, very delicate colouring and greatly admired when shown. Upright grower. **H.2. £2.50**
- Pathetique.** (Blackwell). Double. Tube and Sepals dark red. Corolla white veined similar to Swingtime, large. Grows upright. **H.2. £2.50**
- Pat Meara.** 1962 (V. V. Miller). Single. Sepals rose pink. Corolla veronica blue paling to white at the centre of the base flared wide saucer like Citation its parent. This fuchsia won several awards in 1962/63. **H.1. £2.50**
- Paula Jane.** 1975 (Tite) Semi-double. Tube short, Venetian pink. Sepals carmine-rose, arching upwards hiding tube. Corolla beetroot purple changing to ruby-red with maturity, pale pink flush near sepals. Medium sized flowers. Floriferous, compact, easy **H.2 £2.50**
- Pauline Rawlings.** 1959 (Bridger). Double. Tube and Sepals pale flesh pink. Corolla rich pink. Flowers Medium, very free. Grows upright. **H.2. £2.50**
- Peachy.** 1992 (Stubbs) Double. Tube and Sepals white. Corolla marbled peachy pink. Growth arching and vigorous – very suitable for container growing. **H.2. £2.75**

- Haute Cuisine.** 1989 (H.J. de Graaff). Double. Tube and Sepals Aubergine/purple. Corolla dark reddish purple – maturing to aubergine purple. Medium sized double blooms. Lax grower. **H.2. £2.75**

*Hawaiian Sunset*

- Hawaiian Sunset.** 1990 (McDonald). Double. Tube pale pink. Sepals rose. Corolla dark red-purple which lightens with maturity. Good green foliage. Fairly strong upright bush. Much sought after. **H.2. £2.75**
- Hawkshead.** 1988 (J. Travis). Single. Tube short, white suffused green. Sepals white flushed green. Corolla white, barrel shaped. Dark green small foliage. Growth very upright and bushy. Suitable for hedging in sheltered areas. 3-5ft (90cm-1.5m). **H.3. £2.50**
- (Hardy)**
- Hazel.** 1985 (Richardson) Double. Tube and sepal cream veined pink. Corolla pale lilac. Large sized blooms. Very pleasing lax bush variety. **H2 £2.75**
- Heidi Ann.** 1970 (Smith). Double. Tube and Sepals crimson. Corolla lilac, paler at base, veined cerise. Very free medium flowers on a compact bush. Suitable for bedding. **H.2. £2.50**
- Heinrich Henkel.** 1905 (Rehnelt). Single. Tube and Sepals rose. Corolla salmon. Flowers long, very free, borne in clusters. Sepals small. Corolla small. A hybrid from F. triphylla. Grows upright bush. **H.1. £2.75**
- Helen Clare.** 1973 (Holmes). Full double. Tube yellow/green. Sepals white with very faint pink on underside. Corolla creamy white. Frilly edge. A very strong upright grower with excellent glossy foliage. Much admired before release. In our opinion this fuchsia has more yellow colouring than Ronald L. Lockerbie. Highly recommended. **H.1. or H.2. £2.75**
- Heritage.** 1902 (Lemoine) Semi-double. Tube and sepals scarlet, corolla rich purple. Flowers fairly large. 2-3ft (60-90cm). **H.3. £2.50**
- (Hardy)**

- Hermiena.** 1987 (La Vieren, Dutch). Single. Tube and Sepals white, long and thin. Corolla darkest violet-purple when opening. Extremely striking colour contrast with this spectacular bloom. Excellent bushy plant for pot or show work, free flowering. **H.2. £2.75**
- Hidcote Beauty.** 1949 (Webb). Single. Tube and Sepals white tipped green. Corolla pale salmon pink. Flowers medium, fairly free. Upright. **H.2. £2.50**
- Hollys Beauty.** 1989 (Garieth) Double. Tube white. Sepals white flushed palest rose. Corolla pale misty lavender. Foliage light to medium green arching and vigorous. **H.2. £2.75**
- Howletts Hardy.** 1952 (Howlett). Single. Sepals scarlet. Corolla violet. Fluted and medium sized flower. Good grower. 2-3ft (60-90cm). **(Hardy) H.3. £2.50**
- Iced Champagne.** 1968 (K. Jennings). Semi-double. Tube pink. Sepals pink tipped green. Corolla pale pink, veined pink. Flowers longish, medium sized, extremely free. Growth short jointed, self branching, compact. **H.2 £2.50**
- Ichiban.** 1973 (Fuchsia-La Nursery). Double. Tube white to pink, short and thick. Sepals white to pink, broad. Corolla spinel-pink at base, fading to cyclamen-purple at tips of petals maturing to china-rose. Flowers are very large and free for size. Growth trailer. **H.1./H.2. £2.75**
- Igloo Maid.** 1972 (Holmes). Full double. Tube and Sepals white. Corolla same. A very strong upright grower with light foliage and large blooms. Under some conditions very slightly pink when fading. Very showy plant, Thoroughly recommended. **H.2. £2.75**
- Impudence.** 1957 (Schnabel). Single. Sepals bright scarlet. Corolla white, opens very wide to form almost flat saucer shape with stamens sticking out most pronounced, giving impudent look. Similar to Citation but we consider superior. **H.2 £2.50**
